

Cartagena - Colombia
January 30 - 2017.

Remanso de Amor Foundation is a non-profit organization, founded in 1996, with the task of improving the quality of life of preschool children, pregnant women, and the young people of the poor communities of the city of Cartagena de Indias, Colombia.

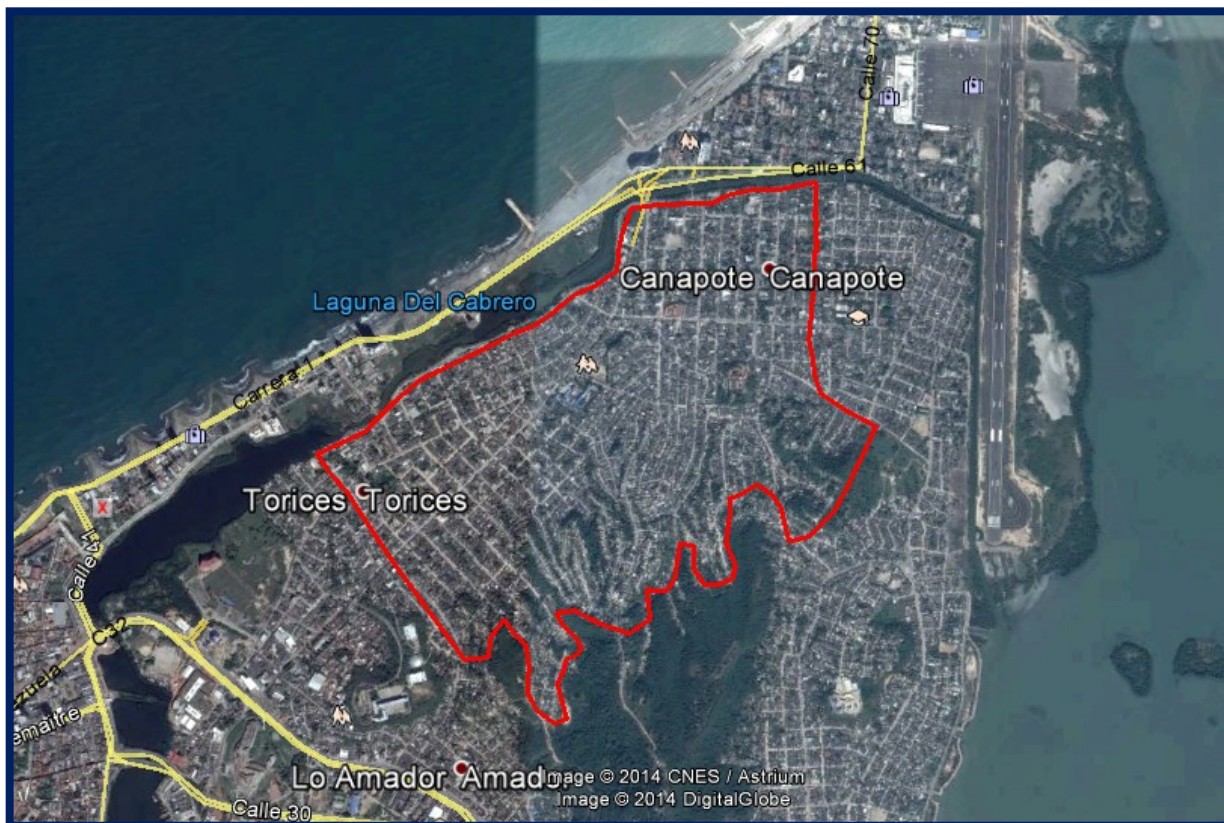

Cartagena de Indias, has a total population of 1'069.7558 inhabitants, the average density of the municipality is 1,717 inhabitants per km². The largest concentration of population is in urban areas, 93.4% (999,463 inhabitants), while only 6.6% (70,292 people) of people living in some rural areas. Cartagena de Indias, has 65% of the population in poverty, of which 25% are in extreme poverty. Early pregnancy, street gangs, drug addiction, domestic violence and malnutrition and underweight are social phenomena of the growing community.

We are located in the barrio Canapote, calle de la Rosa No. 59 A-17 in the city of Cartagena, Colombia.

We serve 15 poor neighborhoods located at Cerro de la Popa and its surroundings.

Expected Goals

Build a protective environment for the infants and children in high risk areas of the city of Cartagena de Indias.

Contribute with improving of the quality of education during the first part of childhood as a human right for the children of the poorest areas of the city of Cartagena.

“The one who learns to open his hands for solidarity, will end opening the heart for love”

Expected Goals

Improving the sexual and reproductive health of the pregnant teenager mothers at an early age in extreme poor conditions.

Decrease the percentage of children with low birth weight at birth and elderly living in extreme poor conditions in the Historic and north Caribbean locations of the city of Cartagena.

“The one who learns to open his hands for solidarity, will end opening the heart for love”

Fundación Remanso de Amor

Expected Goals

Increase the prevalence of use of contraceptive methods in the population that is sexually active between the ages of 12 to 19 years.

Orientation in the formation of values as a preventive manner to decrease the percentage of teenager mothers that have been involved in high risk pregnancies and unwanted pregnancies.

Orientation in the community process for the improvement of quality of life to 50 pregnant or lactating mothers with their neonates during the puerperium period that live in extreme poor conditions.
